INVISION is a rare proven bull in the Angus breed today! He sires low birthweight cattle with explosive early growth and a moderate mature size with a very pleasing look. There have been hundreds of commercial as well as registered heifers calve unassisted to him. Studying his EPDS and progeny ratios as well as the quality individuals he has sired one would be hard pressed to find a bull that covers all bases the way he does!! If your VISION is rock solid Angus cattle – INVISION is a must use bull!!!!

An outstanding set of sons are selling in the
